

# Why Did I build Japanese House?

Ecologic MASA SHINT

# Why I built Japanese House?

- Traditional House Keeps My **Japanese Identity** as a interpreter
- (Family (家庭(Katei)))

= (家 House + 庭 Garden)

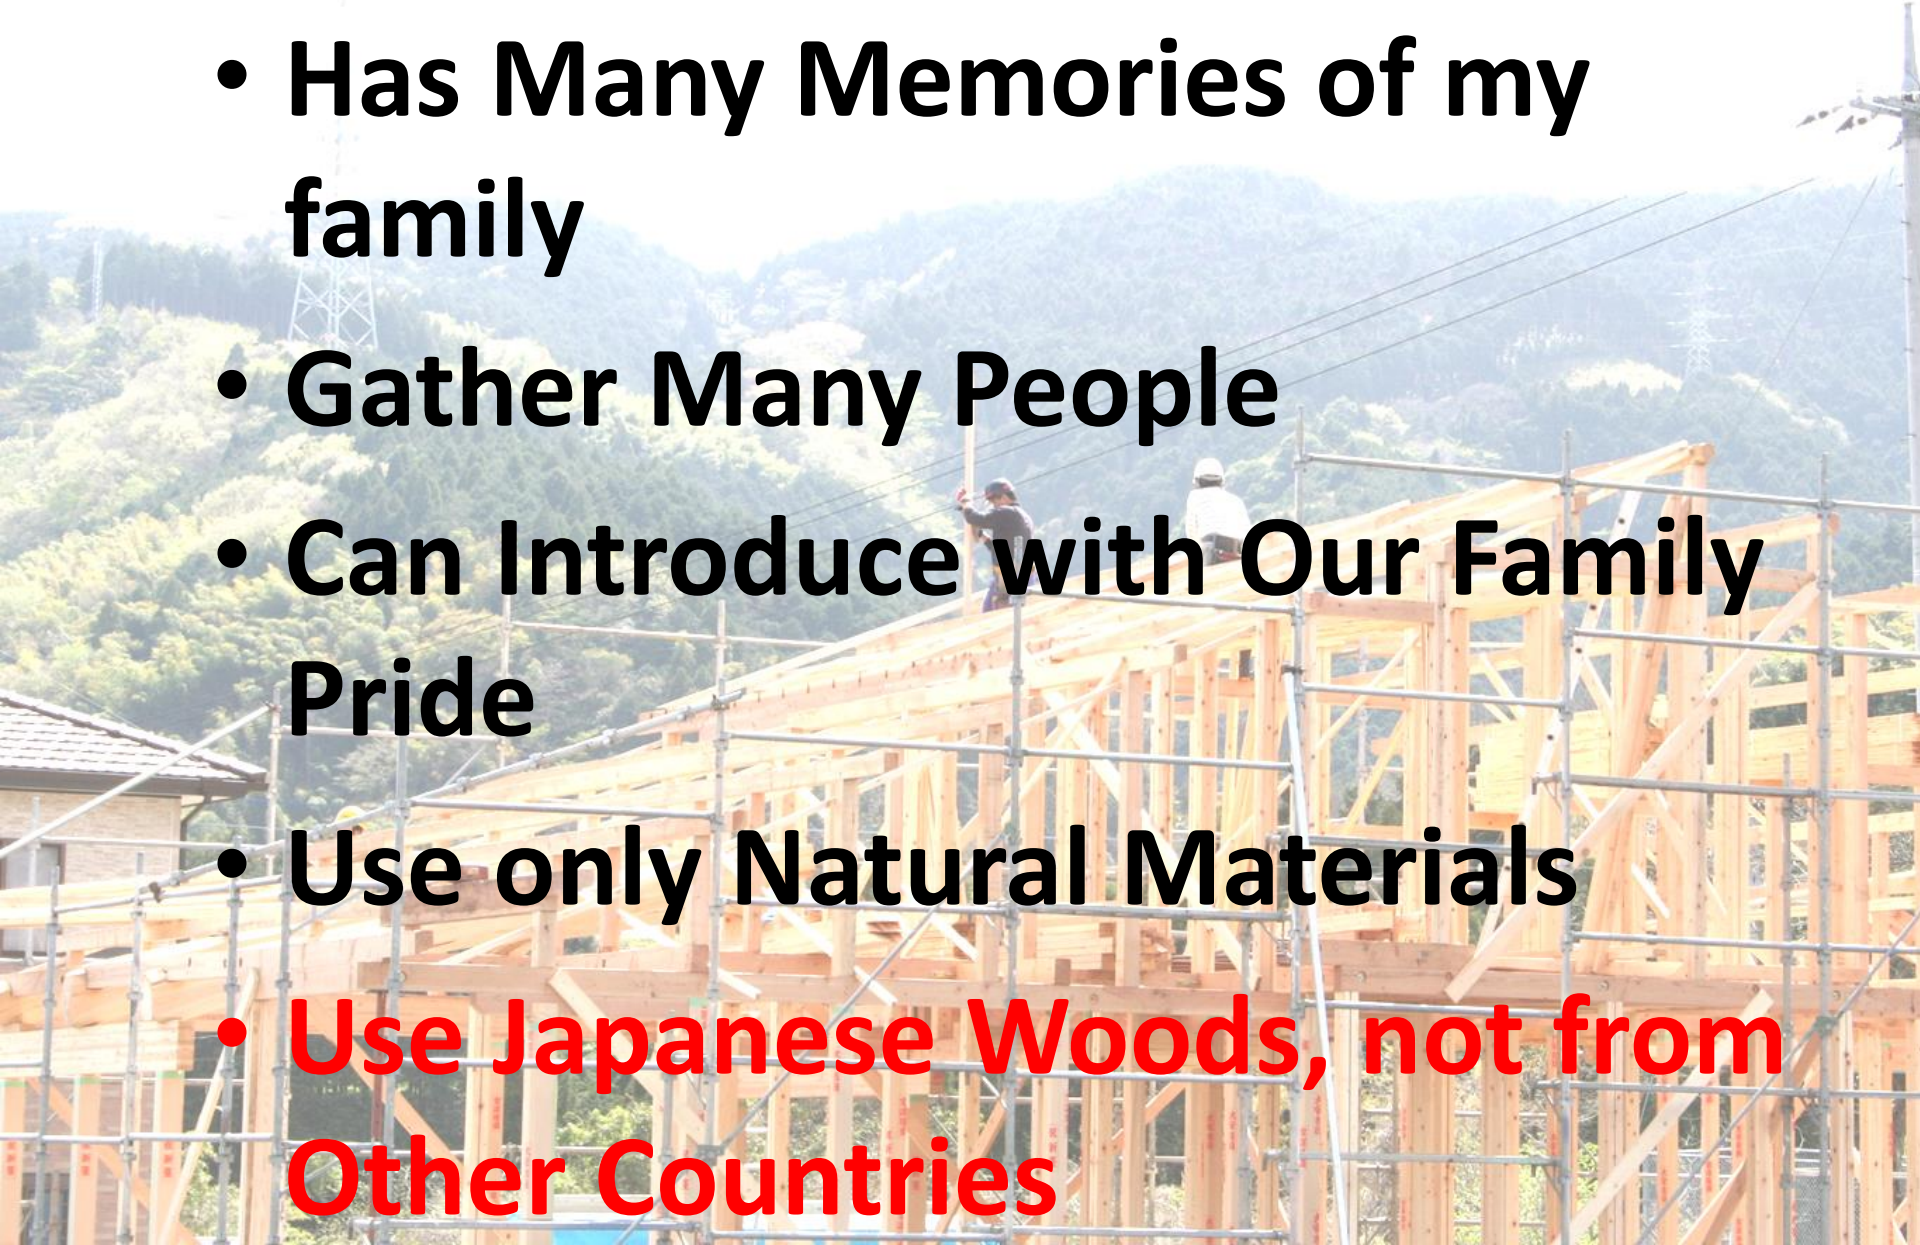

**+ Memories of Family**

- Necessary to Have Own House Belongs to Local **Community**
- **Duty of a Father** is to Make **Hometown** for my children

# Image of My House

- Has Many Memories of my family
- Gather Many People
- Can Introduce with Our Family Pride
- Use only Natural Materials
- Use Japanese Woods, not from Other Countries

## **Main Reason Why I built Japanese House?**

**Many House Woods are coming from forests outside of Japan including Tropical Rainforest. The Price of them are a lot cheaper than ones in Japan. Therefore, Foresters lost their jobs and Japanese secondary forests lost the crucial role of forests**

And also, we can keep our  
culture and identity!!

**My Carpenter  
who Understand  
my dream. We  
call him, “KING”.**

ソトコト

## Start from My Kids Dream

**Hand  
Inprint**

# Cypress Beams

Kids must learn from adults
